

Hybrid Solar PV Systems

 Inverter: Deye / Solis
 PV Panel: Trina (N-Type)

Date of preparation: December 20, 2025

Valid until: March 31, 2026

SPECIAL NOTES:
Site Assessment:

The prices provided represent standard project rates. A site visit by a qualified professional will be conducted prior to finalizing and executing the Sales Agreement with the EPC company.

Underground Cabling:

Underground cabling is not included in the quoted prices. If required, a separate quotation will be provided following a proper site inspection, and such work will be billed as an additional cost.

Energy Generation Estimates:

Actual monthly energy generation may vary based on factors such as the tilt angle and azimuth angle of the PV array. The figures provided are indicative only and based on standard test conditions.

Location-Based Pricing:

The quoted rates are valid for all regions of Sri Lanka except for sites located in the Northern Province. Projects in the Northern Province may be subject to additional charges.

CEB Metering & Clearance Charges

CEB energy meter replacement charges applicable under Net Accounting and Net Metering schemes are included in all the above packages. However, clearance request charges are not included and must be borne by the customer, payable directly to the CEB.
